

JALA Tech Data Scientist Take Home Test

Faisal Nur Khairudin

- Hasil evaluasi kelengkapan data:
 - Tidak terdapat *feature description* untuk dataset **feed_tray** dan **mortalities**
 - Terdapat *missing values* yang lebih dari 10% pada beberapa kolom di beberapa dataset
 - Terdapat beberapa kolom tanggal yang masih memiliki tipe data "object"
 - Terdapat *negative value* pada beberapa kolom yang tidak masuk akal
 - Terdapat duplikat data berdasarkan semua kolom terutama pada *feeds dataset* yang memiliki jumlah paling banyak
- Hasil perhitungan SR dan ADG udang di setiap siklus budidaya (10 baris pertama):
 - Survival Rate (%)

| 9 | 3458.0 | 2020-06-12 | 20.49 | 2.34 | 7.0 | 0.334286 |

- Hasil prediksi model:
 - Survival Rate (in percentage) forecast
 - Hasil metrik evaluasi model training:

| | Model | MAE | r2_score |
|---|-----------------------|-----------|-----------|
| 0 | RandomForestRegressor | 4.330758 | 0.826690 |
| 2 | XGBRegressor | 5.076364 | 0.803925 |
| 4 | CatBoostRegressor | 6.585183 | 0.706695 |
| 3 | LGBMRegressor | 7.218221 | 0.649573 |
| 1 | AdaBoostRegressor | 17.688743 | -0.297745 |

- Hasil *cross validation*:

| | MAE | r2 | Adj-r2 | std-MAE |
|-----------------------|-----------|-----------|-----------|----------|
| Model | | | | |
| CatBoostRegressor | 9.379899 | 0.351475 | 0.350068 | 0.327404 |
| RandomForestRegressor | 9.513719 | 0.284244 | 0.282692 | 0.333111 |
| LGBMRegressor | 9.524140 | 0.342994 | 0.341569 | 0.344540 |
| XGBRegressor | 9.720559 | 0.265480 | 0.263887 | 0.235580 |
| AdaBoostRegressor | 16.853372 | -0.262010 | -0.264747 | 2.408002 |

4. Kesimpulan dan penjelasan terkait fitur atau variabel apa yang penting dalam membuat prediksi
5. Rekomendasi mengenai bagaimana budidaya udang perlu dilakukan untuk mencapai hasil yang optimal:
 - Diharapkan para petambak udang mulai mencatat segala data dengan sistem digital, sehingga semua data dapat tercatat. Kemudian, dari data-data yang telah dikumpulkan, sistem bisa melakukan Analisa sesuai dengan kebutuhan para petambak. Harapannya hasil panen udang bisa lebih optimal.
